CLIFF

ANNIVERSARY EDITION

QUALITY FROM THE BLACK FOREST SINCE 1930

CLIFF OUR 2020 EDITION

TRENDY
AESTHETIC
MADE-TO-LAST

In order to celebrate 90 years of Rempp Küchen with due ceremony, we have selected an own anniversary edition: The attractive Cliff model!

With 9 décor colours, it is right in line with the current design trend of modern concrete and stone reproductions, which can be used for fronts, worktops and the complete kitchen environment. The surfaces are extremely similar to the genuine materials and in no way inferior to their big siblings as regards appearance and design. All décor variants are from our own production site in Wildberg and, thanks to their special surface quality, are extremely durable and easy to maintain.

Starting in January 2020, we offer this excellent model in price group 0!

* pietra grey, available with continuous texture for max. 6 front parts in price group 2.

concrete dark decor (BZ)

concrete light decor (BE)

concrete slate grey (BH)

ferro black (FC)

ferro oxide (FX)

oxyd-grey (XY)

kito bronze light (KR)

kito steel (KS)

pietra grey (PY) *

1930 TO 2020

REMPPE KÜCHEN IS WRITING HISTORY

90 YEARS OF QUALITY FROM THE BLACK FOREST

Wildberg, located on the fringes of the northern Black Forest, is home to Rempp Küchen. Rempp has already been synonymous for high-quality kitchens from the Black Forest for 9 decades. We aspire to have satisfied customers who enjoy their home, in a kitchen of Rempp quality.

LOOKING BACK

Back in the 1930s, what originally started out as a small workshop in Fluorn near Rottweil, has grown over time from a traditional carpenter business to a state-of-the-art, future-oriented production site.

Today, we manufacture kitchens with a convincing price-performance ratio at our corporate headquarters in Wildberg that satisfy the most discerning demands.

120 – 12,000 – 50,000

With more than 120 employees and a production site of more than 12,000 m², more than 50,000 cabinets are produced in Wildberg every year. Whether serial, single-item, or custom-made production – we believe that every order deserves the same precision and passion. Well-wrought grid standards, smart special solutions and highly-motivated employees with the best professional qualifications provide the base for our high quality standards.
